Safety, Health & Environment (SHE)

PLEASE COMPLETE THIS FORM AND TAKE A COPY FOR YOUR RECORDS

All traders and exhibitors are required to complete this SHE documentation.

It is a requirement for all exhibitors to carry out an assessment of risks that are created as a result of their activities which could affect the health and safety of themselves, their employees and anyone else (such as contractors, helpers and members of the public etc).

The risk assessment should take account of significant risks that are created during event set up, the duration of the event and any activities during event break down.

You should complete a risk assessment that details the significant risks posed by your operations covering set-up, the event and closure. The onus is on you to ensure suitable and sufficient controls are implemented to reduce those risks. You will need to have this assessment available on your stand throughout the duration of the event.

If an accident or incident occurs, the Investigating Authorities will ask to see evidence of a risk assessment, to satisfy themselves that the person(s) responsible have taken all reasonable measures to control hazards and risks.

To help you we have prepared the checklist below. Although not exhaustive, it outlines some of the more common hazards. Please indicate those issues that are applicable to your stand.

Identify potential hazards:

	Tick		Tick
Slips / Trips on ropes, cables etc.		Carrying heavy objects	
Items protruding into gangways		Chemicals, Oils, etc.	
Power cables		Sharp objects	
Power tools		Small objects	
Generators		Heating / cooking equipment	
Overloading tables		Objects falling from heights	
Adverse Weather - Gazebos, plastic coverings etc flying off in the wind		Objects falling from vehicles	
Other please state::			

Please note: the onus is on **you** to ensure suitable controls are implemented to reduce these risks.

Record the precautions which you will be taking

	Tick		Tick
All items kept within allocated space		Generators placed safely	
Stand coverings fixed securely		Position vehicles facing downhill for unloading	
Extra fixings in windy conditions		Small objects placed out of reach of children	
All ropes and cables safely located		Heavy items secured	
Heating / cooking equipment placed safely and out of reach			
Other: (please state):			

HEALTH & SAFETY DECLARATION

I acknowledge the event Health, Safety & Environment Policy, and confirm it will be complied with.
